TR Turkish Desk

Establishing a PETERKA & PARTNERS Turkish Desk was a well-considered decision based on the exponentially growing potential of the Turkish economy that we have been closely monitoring over the last few years. Some rather recent significant Turkish projects and investments at both the local and international level and the rising interest in cooperation between Turkish companies and companies operating in the CEE region were among the deciding factors behind the creation of a Turkish Desk within the structures of PETERKA & PARTNERS.

Top-notch professionals from all PETERKA & PARTNERS offices are involved in the activities of the Turkish Desk. Nevertheless, various obvious reasons, such as geographical situation and the historical ties between Bulgaria and Turkey, led to the natural outcome of the PETERKA & PARTNERS Sofia office being named the main point of contact for the Turkish Desk.

The highly-experienced professionals at PETERKA & PARTNERS offer comprehensive legal assistance both to Turkish businesses currently operating in the CEE region or new market entrants, as well as to CEE companies expanding to Turkey. This “two-way-street” process is supported by our “one-stop-shop” approach which helps our clients have their legal services coordinated by the desk regardless of the jurisdiction.

Another important aspect of the activities of our Turkish Desk, which facilitates the provision of the abovementioned legal services, if and as necessary, is the maintenance and further development of our well-established contacts with prominent Turkish law firms. Through years of hard, dedicated work, PETERKA & PARTNERS has established strong, trustful relationships with top tier local law firms across Turkey.

Not only is the outstanding list of clients supported by the Turkish Desk continuously growing, but the already existing clientele also continues using the services of the Desk and the know-how of our professionals.
