ANTITRUST AND COMPETITION

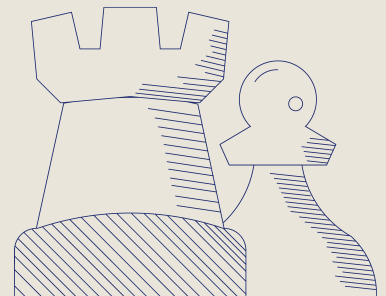

The PETERKA PARTNERS Antitrust & Competition Practice provides assistance with our clients' competition law needs and helps them navigate the evolving competition and antitrust laws in the CEE region and other jurisdictions. The competition specialists in our offices operate as one integrated team and have close working relationships with antitrust counsels through our network law firms. The group thus provides an international practice, which is unique, covering a wide range of expertise.

In today's increasingly competitive and regulated world, potential anti-competitive conducts have become a fact of business life. The highly-regulated environment creates a potentially dangerous space for businesses and requires antitrust specialists with a comprehensive knowledge of local practices and expertise. The PETERKA PARTNERS Antitrust & Competition Practice meets these challenges as our team comprises competition specialists who are fully aware of both the local and international dimensions of antitrust and competition issues across the CEE region. Our understanding of the laws and processes in jurisdictions in the CEE region enables us to advise our clients effectively on the cross-border matters.

OUR SERVICES

Given the regional focus of PETERKA PARTNERS in the CEE region, the Antitrust & Competition Practice focuses on cross-border and multijurisdictional transactional work. We are thus involved in leading and coordinating the merger control strategy and process in cases involving multijurisdictional filings. PETERKA PARTNERS is organized and acts as “one firm” and leverages its unique integrated infrastructure, industry insight and deep local expertise to deliver complex legal solutions with an exceptional commercial value for our clients. Our Antitrust & Competition Practice can thus serve as a unique one-stop contact point for clients when dealing with competition issues in any CEE country.

As no business can completely eliminate risk, but having policies and procedures in place and ensuring that these measures are effectively implemented can reduce their impact. We know best practices, and can help to create effective, reasonable and appropriately scoped antitrust audits. PETERKA PARTNERS offers also seminars and trainings to guide the clients in various areas of competition law.
